Projects

Sep 2018 -

present

- Created an app that generates music to match the user's weather.
- Users can discover music for their current weather, fine-tune their discover settings, add songs to weather playlists, listen to playlists, and export those playlists to Spotify.
 - Stack: React/Redux, Node.js, Express, MongoDB, JWT, Mocha/Chai, Enzyme, Jest

¡Hablamos! Sep 2018 -

WeatherFM

present

- Constructed a spaced-repetition, learning application for Spanish.
- Built around a spaced-repetition algorithm, Hablamos ensures that users spend more time practicing the words they answer incorrectly rather than ones they already know.
 - Stack: React/Redux, Semantic UI, Node.js, Express, MongoDB, JWT, Mocha/Chai

Cocktail Buddy Aug 2018 -

present

- Built a cocktail recipe app that lets users search and filter a database of classic recipes as well as add and remove their own drinks.
- As an avid cocktail enthusiast, I wanted a way to easily search through and filter my favorite drink recipes while also having a place to store ones I have created or found elsewhere.
 - Stack: React/Redux, Node.js, Express, MongoDB, JWT, Mocha/Chai

Aug 2011 -

Bachelor of Arts in History, Colgate University

May 2015

- Major GPA: 3.37/4, GPA: 3.19, Dean's Award for Excellence Spring 2012
- Active member of Theta Chi Fraternity and Recruitment Chair in 2012.
